

TEMPERATURE AND HUMIDITY METER

Connected AirWits Plus

Connected AirWits Plus is a connected temperature and humidity metering device with an E ink display and ultra-long battery life.

This intelligent and small device measures, periodically send and displays the temperature and humidity data using the worldwide Sigfox IoT-network connectivity for data transmission enabling very low life time cost.

The installation of the device is incredibly simple, and requires neither special tools nor configuration operation.

Simple, connected, maintenance-free, ultra-low cost, powerful, and accurate. The perfect solution for long term indoor temperature and humidity metering.

- Casing: ABS plastic for indoor use
